Price excludes costs for drinks, lunch, dinner and extra rounds of golf not mentioned above.

## Thracian Cliffs Golf and Spa 5\* Hotel Resort

A newly-built resort with a direct access to a beach on the Black Sea, Thracian Cliffs offers deluxe accommodation adjacent to an 18-hole golf course. It features an extensive spa with a sauna, a hot tub and a hammam, a steam bath, cold water bucket along with a sundeck, as well as an outdoor infinity pool.

Opening out onto private balconies with panoramic sea views, apartments at Thracian Cliffs Golf & Beach Resort are equipped with functional kitchens, spacious living areas and separate bedrooms.

The main restaurant at the Marina Village serves a diverse menu of Bulgarian and Provençal dishes, and takeaway options for picnics from the Deli are also available. At Bendida Beach, a Moroccan-style brasserie offers barbecue food prepared on volcanic stones. Decorated with an ancient Thracian theme, the on-site spa provides relaxing massages as well as facial and body treatments.

## Thracian Cliffs Golf Club

*"You will not find a golf course like this anywhere else on the planet" (Gary Player)*

The golf course at Thracian Cliffs Golf & Beach Resort is located on the northern Black Sea Coast of Bulgaria and it's a Black Knight signature design that opened in 2011.

BlackSeaRama was Gary Player's first Bulgarian ensemble and the layout has already received positive accolades. But his Thracian Cliffs is set to become the most talked about and the most photographed golf course in Europe.

The course is routed, hole after hole, along the cliffs on magical land of the once powerful Thracian kingdoms. The setting is pure theatre and Gary Player is quite rightly enthusiastic about the site.

"You will not find another golf course like this anywhere on the planet", commented the Black Knight. "Pebble Beach is renowned as the best site and I would say Thracian Cliffs is twice as good as Pebble Beach."

"I have to say, without a question of doubt, that I have never before played on a golf course where you can see the ocean on every single hole. When people come here, they are going to say Thracian Cliffs is the best golf course they have ever played in their life. I have been playing for 56 years and I never knew there was ground like this on the planet for a golf course."

Every new golf course requires a period of settling and growing in, but Thracian Cliffs headed our Bulgarian golf course rankings soon after it opened and will surely rise even higher in our future Continental European rankings... especially after the 2013 World Match Play Championship, won by Graeme McDowell, which showcased the course to a worldwide audience.

## **Black Sea Rama Golf Club**

In recent times, Bulgaria has lagged way behind other Eastern European countries like Turkey and the Czech Republic when it comes to investing in top end courses for visiting golfers. Well that is about to change very soon, thanks in no small measure to Gary Player, one of the global golfing greats.

Approached by the Bulgarian Golf Association's President, Krassimir Guergov to help popularise the game in his country, the Black Knight has taken to the task with gusto, putting his name to a couple of major projects to the north east of Varna, on the edge of the Black Sea, near the town of Balchik.

The multi million development at Thracian Cliffs opened in 2011 and the other resort at BlackSeaRama has been open since 2008. Occupying a cliff top setting along the edge of the sea, the course is laid out within a residential estate that proudly claims to be Bulgaria's first gated golfing community.

BlackSeaRama co-hosted the 5th Bulgarian Open Amateur Championship in 2009, sharing the tournament with another new venture, the Ian Woosnam-designed course at the Lighthouse Golf Resort, so it's easy to see why many think the future of golf in this part of the world looks very bright indeed.

## Lighthouse Golf Club

The Lighthouse course at the Lighthouse Golf Resort and Spa is one of three new golf courses to have opened along Bulgaria's Black Sea coastline since 2008 – BlackSeaRama and Thracian Cliffs being the other two layouts.

Designed by European Golf Design with Ian Woosnam as the headline-grabbing architect, the Lighthouse course has been fashioned to complement the other two Gary Player-designed courses that occupy this part of the Cape Kaliakra landscape with fairways laid out around several pockets of residential development and a routing that occasionally takes holes towards the cliff tops.

Measuring 6,747 yards with a par of 71, the Lighthouse course boasts a fine set of five short holes, two on the front nine and three on the back nine. Undoubtedly, the best of these par threes is saved until last, at the 164-yard 17th, where water protects the front right hand side of the green.
